Login

Type in your username and password and click "Login" below.

No account?

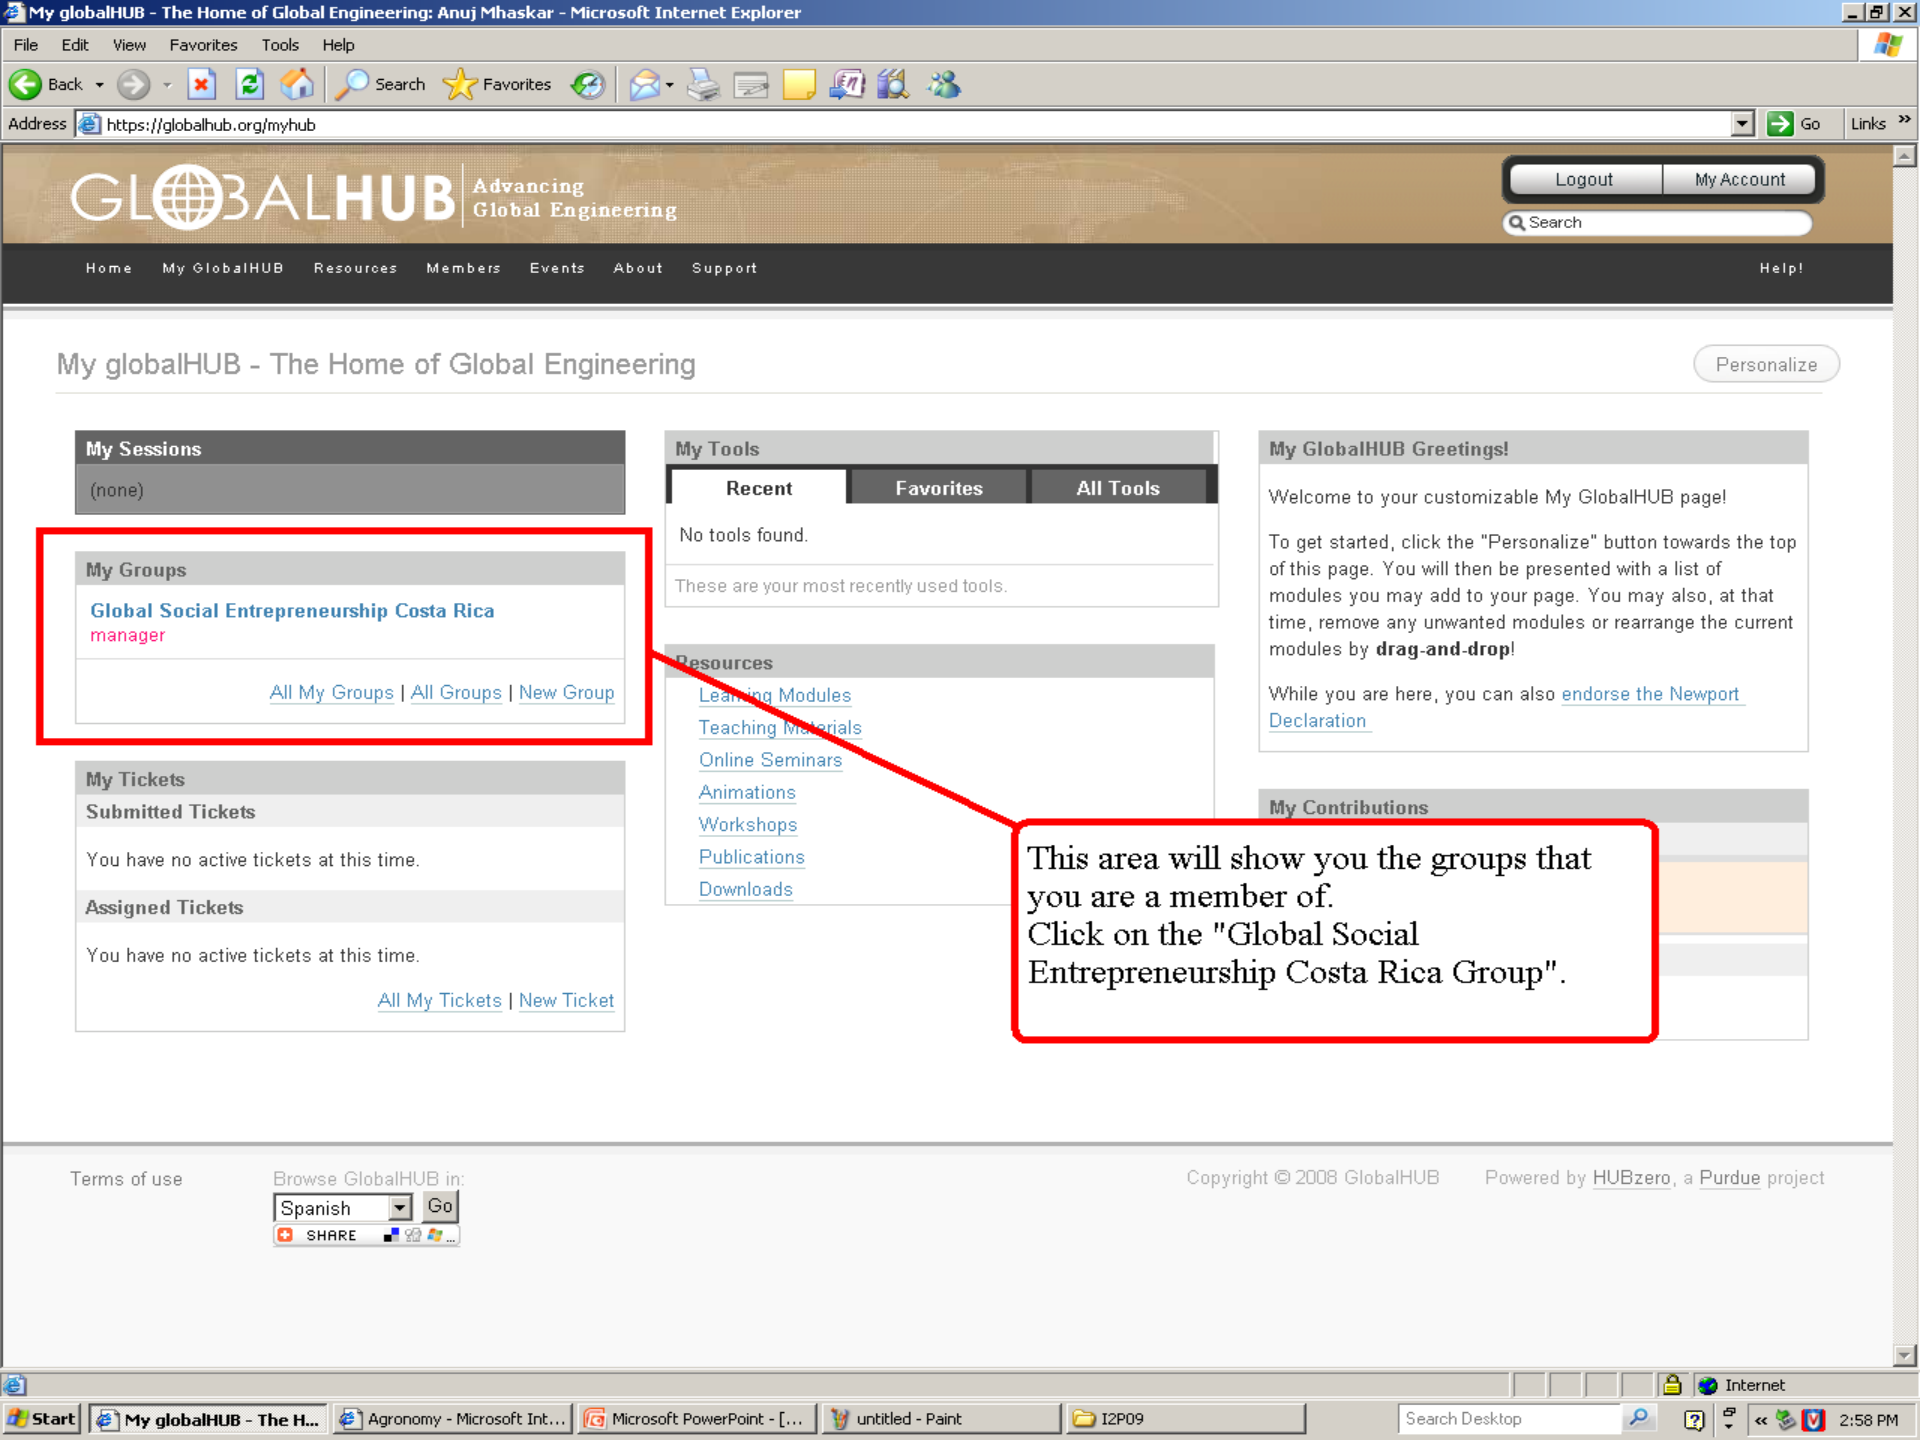

[Create an account.](#) It's free!

Is this really free?

Yes! Use of GlobalHUB resources and tools is *free* for registered users. There are no hidden costs or fees.

Why is registration required for parts of the GlobalHUB?

Our sponsors ask us who uses the GlobalHUB and what they use it for. Registration helps us answer these questions. Usage statistics also focus our attention on improvements, making the GlobalHUB experience better for *you*.

My GlobalHUB Greetings!

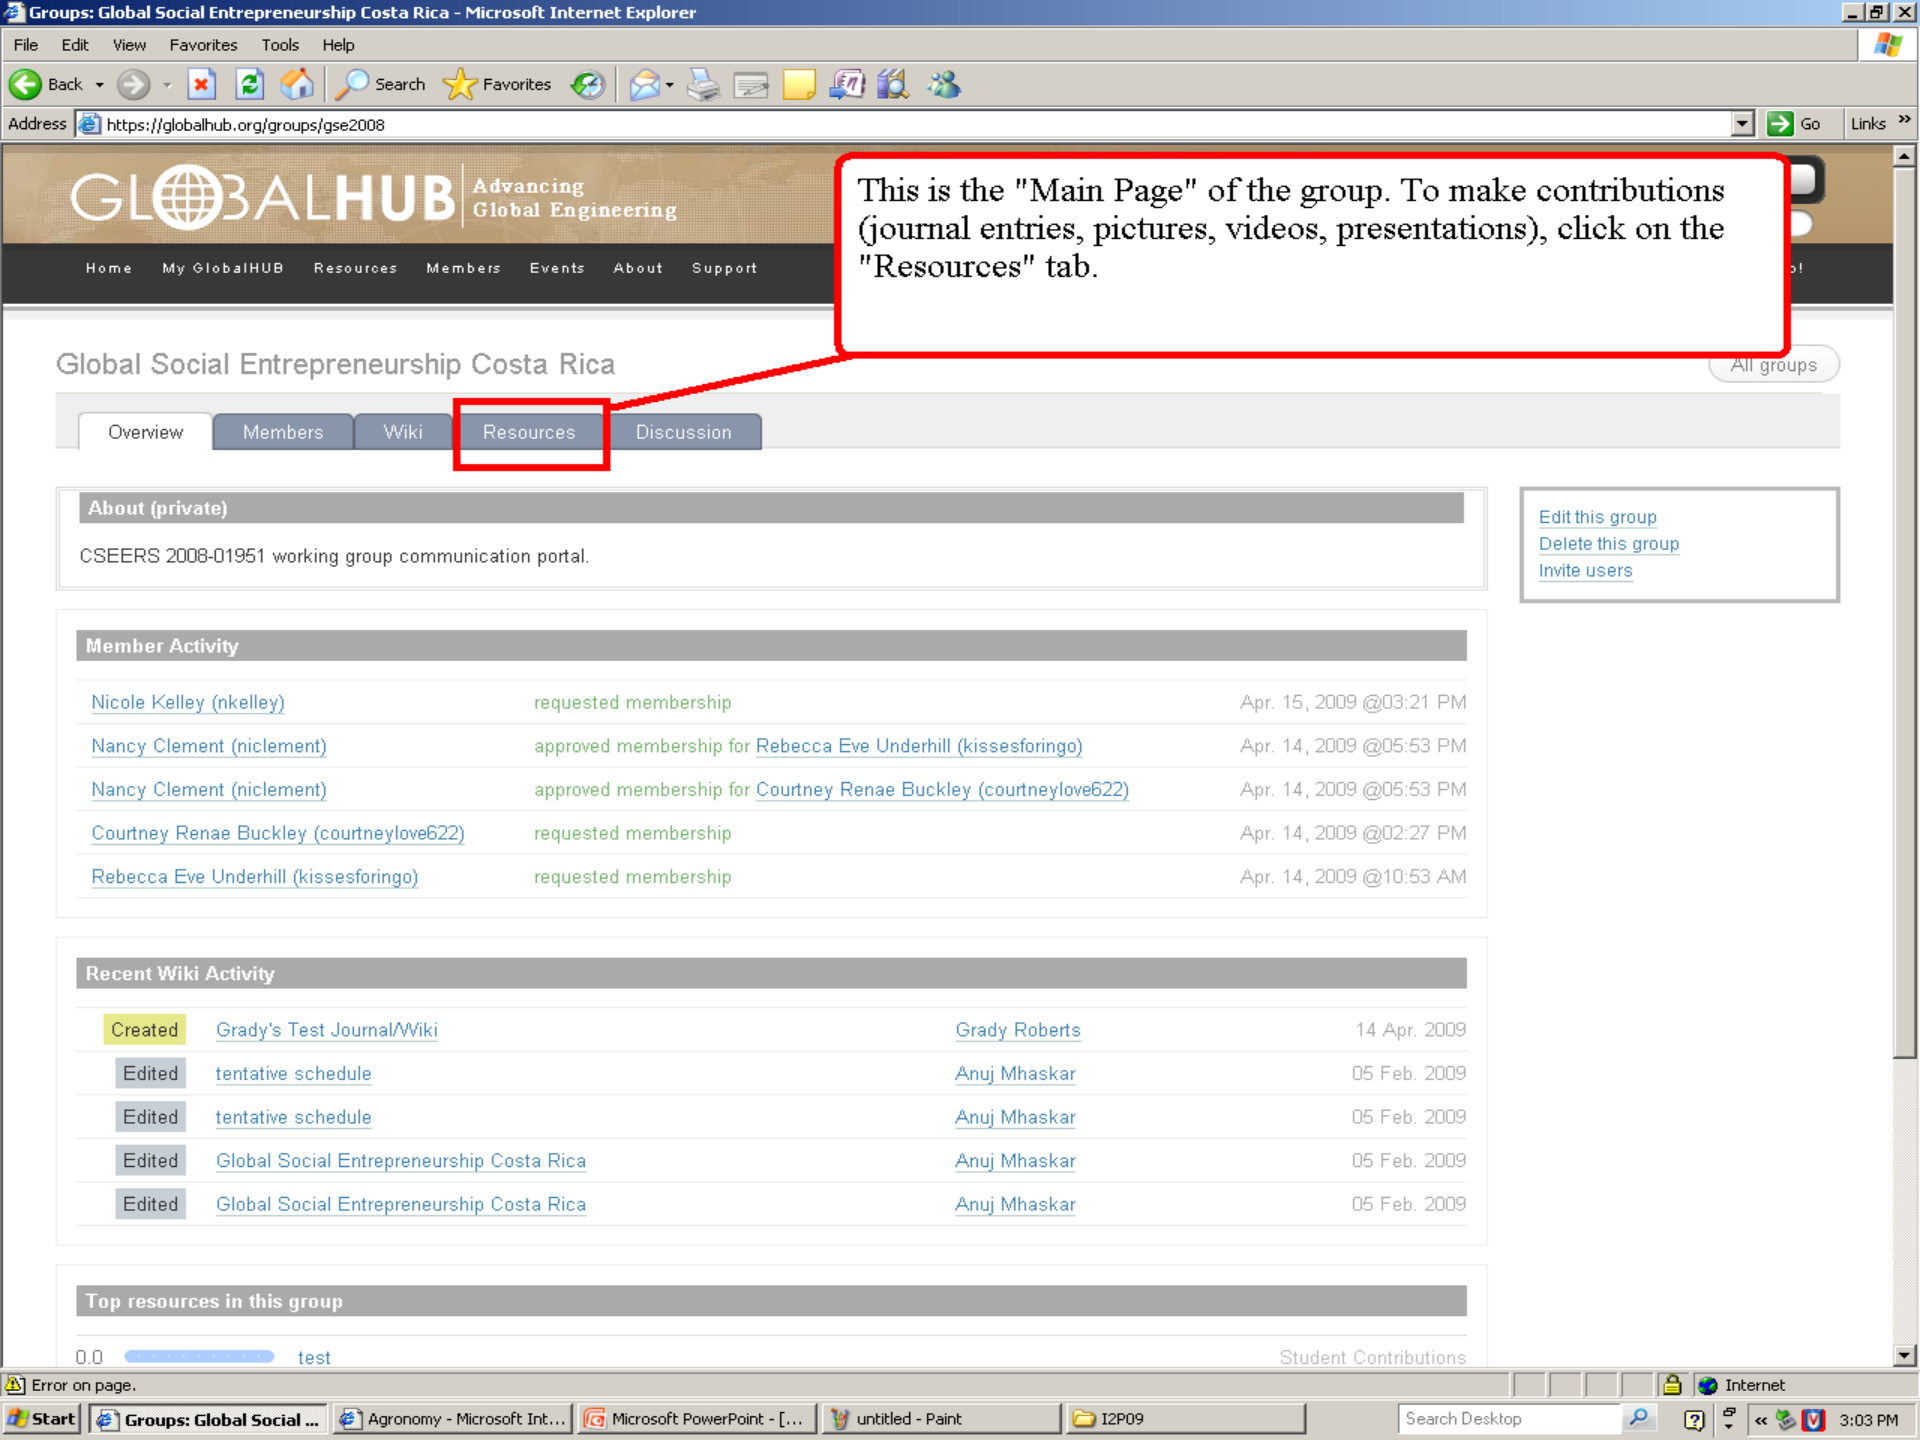

Welcome to your customizable My GlobalHUB page!

To get started, click the "Personalize" button towards the top of this page. You will then be presented with a list of modules you may add to your page. You may also, at that time, remove any unwanted modules or rearrange the current modules by drag-and-drop!

While you are here, you can also endorse the Newport Declaration

My Contributions

This area will show you the groups that you are a member of. Click on the "Global Social Entrepreneurship Costa Rica Group".

This is the "Main Page" of the group. To make contributions (journal entries, pictures, videos, presentations), click on the "Resources" tab.

Select one of the resource types listed to proceed to the next step. The type of resource chosen can affect what information you will need to provide in the following steps.

What if I want to contribute a type not listed here?

If you feel your contribution does not fit into any of our predefined types, please [contact us](#) with details of

what you wish to contribute, including a description and file types

how you believe it should be categorized

We will try to accommodate you or provide another suggestion.

In order for globalHUB - The Home of Global Engineering to display your content, we must be given legal license to do so. At the very least, globalHUB - The Home of Global Engineering must be authorized to hold, copy, distribute, and perform (play back) your material according to [this agreement](#). You will retain any copyrights to the materials and decide how they should be licensed for end-user access. We encourage you to [license your contributions](#) so that others can build upon them.

This table lists the different types of contributions that can be made. The method to upload content is the same for all of them. Lets choose "Student Contributions" for this presentation.

About

You can type in the details of your contribution in these boxes. This is how the information will be read by other group members.

Title: **REQUIRED**

test 3

Abstract/Description:

The contribution process is intended to be much like composing an e-mail: You'll start with writing the introduction and main content of your contribution and later attach files to it (video, PDFs, etc).

The abstract is typically a one or two paragraph description of your contribution.

Once you are done typing in the necessary information about your content, scroll to the bottom of the page and click "Next".

Details

Any additional information will go in one of these boxes (Optional).

Bio:

Credits:

Here you may add any relevant information to your resource concerning contributor bios, credits, funding, references, etc.

Contribute: Step 2: Attach

START Compose **Attach** Authors Tags Review CANCEL

Attachments

No attachments currently listed for this item.

Click "Browse", select the file you want to attach, then click "Upload".
 The file name will be visible below the text box if it has been attached successfully.
 If you do not have any attachments, click "Next".

What are attachments?

Attachments are the primary files to be downloaded or viewed by the end user. They can be PDFs, DOCs, etc. A good way to think of it is with the e-mail metaphor: the description page is your e-mail message describing the file(s) you're sending.

How do I attach a Breeze presentation?

To attach a Breeze presentation, first turn the entire presentation into a package (EX: zip file) and then upload it. The package will be uploaded, unpacked, and we will automatically detect the main viewer file for the presentation.

Click here to proceed.

Group ownership

Group: OPTIONAL Access level: OPTIONAL

Select group ... Public

Public = anyone may view/download the resource
Protected = abstract is visible, files restricted to group members
Private = only visible to group members

What is this?

This allows you to associate a resource to a group and control its access to non-group members.

Authors

Select author... or

Enter logins separated by commas.

Add

(Purdue University)

What if a contributor doesn't have a login?

To be listed as an author on a resource and to have a page in our "Contributors" section, the person must have a login. If they do not, we recommend adding an acknowledgements portion to your resource.

What if I'm not a 'contributor'?

If you're not to be listed as a contributor on a resource - for instance, you're uploading content for someone else - you will retain full editing capabilities but not be in the contributors list.

If there are no additional authors, click "Next".

Next >

Contribute: Step 4: Tags

[START](#) [Compose](#) [Attach](#) [Authors](#) [Tags](#) [Review](#) [CANCEL](#)

Add Tags

Assigned Tags:

If a specific tag does not already exist, simply type it in the field above. This will create and assign the new tag to your resource.

What are tags?

A tag is like a subject, keyword, or category.

Next >

Assign a tag such that it will show up in the search listings when users search for a particular keyword on the website.

Review the terms and conditions, and check the box(s) before you turn in your content.

REQUIRED I certify that I am the owner of all submitted materials or am authorized by the owner to grant license to its use and that I hereby grant globalHUB - The Home of Global Engineering license to copy, distribute, display, and perform the materials here submitted and any derived or collected works based upon them in perpetuity. globalHUB - The Home of Global Engineering may make modifications to the submitted materials or build upon them as necessary or appropriate for their services. globalHUB - The Home of Global Engineering must attribute these materials to the author(s). This is a human-readable summary of the Legal Code ([the full license](#)).

OPTIONAL I further agree to license my work under the [Creative Commons 2.5](#) license recommended by globalHUB - The Home of Global Engineering. I have read the [license terms](#), which support non-commercial use, require attribution, and require sharing derivative works under the same license.

Your submission will be reviewed. If it is accepted, the submission will be given a "live" status and will appear in our [resources](#) and at the top of our [What's New](#) listing.

Submit Contribution

This is the final step. your content will be reviewed by the GlobalHUB admin before it is visible to anybody in the group.
